

ABDULLAH KHAN

Full Stack Developer (MERN)

0331-5420998 | abdullahwork2512@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

National University of Modern Languages (NUML), Islamabad

2024 – 2028

Bachelor of Science in Computer Science | CGPA: 3.5/4.0

WORK EXPERIENCE

Python Technologies — Full Stack Developer (Intern)

Jan 2026 – Mar 2026

DHA Phase 2, Islamabad

- Developed and integrated RESTful APIs to connect frontend interfaces with backend services, enabling reliable data exchange across the application.
- Built responsive, mobile-friendly UI components, improving usability and consistency across devices.
- Worked across the full stack, contributing to both client-side and server-side feature development.
- Designed and queried application databases, ensuring data integrity and efficient retrieval.

SoftTech — Full Stack Developer (Intern)

Oct 2025 – Dec 2025

Alipur, Islamabad

- Contributed to end-to-end development of web application features, covering both frontend and backend logic.
- Implemented RESTful API integrations to connect application interfaces with backend services.
- Assisted in database design and management to support core application functionality.
- Participated in code reviews and debugging sessions to improve application stability.

PROJECTS

CharmellaHub – Jewelry E-Commerce Platform

ASP.NET Core MVC, C#, SQL Server, Entity Framework Core, Tailwind CSS, Bootstrap, Stripe API, Twilio, MailKit

- Built a full-stack e-commerce platform with user authentication, shopping cart, wishlist, and order management.
- Integrated Stripe for online payments and Twilio/MailKit for automated SMS and email notifications.
- Developed an admin dashboard for managing products, orders, and customers, with unit tests for core modules.

AI Resume Analyzer & Career Assistant

MERN Stack, JWT, Gemini/OpenAI API, PDF Parser, Tailwind CSS

- Built an AI-powered resume analyzer that provides ATS compatibility scoring and skill-gap analysis.
- Integrated the Gemini/OpenAI API to generate personalized career recommendations from resume content.
- Implemented secure JWT-based authentication and PDF parsing for automated resume data extraction.

AI Study Assistant

MERN Stack, JWT, Gemini/OpenAI API, PDF Processing, Tailwind CSS

- Developed an AI study assistant that generates notes, quizzes, and flashcards from uploaded PDFs.
- Built dynamic, AI-generated study plans using the Gemini/OpenAI API based on parsed document content.
- Implemented JWT authentication and secure session management for user accounts.

TECHNICAL SKILLS

Languages: JavaScript, Python, C#, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, ASP.NET Core MVC, RESTful APIs, JWT Authentication

Databases: MongoDB, SQL Server, NoSQL

Tools: Git, GitHub, Postman, Visual Studio, VS Code, API Integration & Testing

CERTIFICATIONS

Programming in Python — Coursera (Northeastern University)
